Subject: Your Query to

Good Evening

Trust this email finds you well.

You would be pleased to know that the premiums **will not be higher** for insured persons who are trained to respond to emergencies. Also, depending on the type of insurance coverage, the payout for the injuries suffered would differ. **It also does not mean that the claim would definitely be declined just because the injuries were sustained while helping someone.**

Feel free to contact me should you have any query.

Have a great weekend ahead!

Thank You and Warmest Regards,

SCDF
The Life Saving Force

Summary

National CERT Standard

- Training and equipment are compulsory
- “Recommended” training because alternative courses may also be recognised
- Optional items clearly labelled (optional)
- Tier 1 & 2 premises will be notified by mail
- All other FSM premises are tier 3 premises

Insurance

- Insurance premium and coverage not affected
 - Confirmed with multiple agents representing different insurance companies
- Exact coverage and terms determined by individual policy
 - Companies can check with insurance companies and agents for more details on specific policies
